Welcome to Markup R-XP.

The project before you has been designed exclusively for Markup R-XP by **Artecy Cross S** 

For more details on other Artecy patterns please visit their website @ artecy.com.

If you are enjoying Markup R-XP then please join our Facebook group **'Markup R-XP Users'** where you find lots of friendly users who are happy to give you handy hints and tips. See www.Facebook.com/groups/markuprxpusers

There is also our YouTube channel that has lots of useful videos to help you get up to speed with Markup R-XP quickly. See www.YouTube.com/channel/UC0n_zcrnmom6Va1180jWYJg or just search for Markup R-XP.

Many thanks and I hope you enjoy using Markup R-XP.

LOADING CHARTS (PDF)

Select Chart Pages
6 of 12 pages selected

Double Tap To Enlarge

SELECT CHART PAGES

Tap to select chart pages so that they are green
Tap to deselect all other pages (keys/info) so they are pink
Markup R-XP may have already selected the correct pages

All None Invert

Set Page Layout

Layout 2 across X 3 down

Page Numbering Direction First Page Position

SET CHART LAYOUT

TELL US HOW THE CHART PAGES ARE ARRANGED

1. First use the 'Layout' dropdown to select the correct arrangement of pages.
2. Now let us know whether the pages are numbered across in rows or down in columns using the 'Page Numbering Direction' button.
3. Finally use the 'First Page Position' button to tell us whether the first page of the chart is at the top or the bottom of the screen above.

Set Overlap on 2nd Page

Select the size of overlap on this page (0-17)

0 1 2 3 4 5

SET OVERLAP (IF ANY)

If you can see any overlap or shaded area shown on the chart above, select the number of lines it covers using the round buttons. It doesn't matter if the overlap is at the top or left.

Select Key Pages

2 of 12 pages selected

Double Tap To Enlarge

SELECT KEY PAGES

Tap the pages which contain the chart key so they are highlighted in purple.
All other pages should remain un-highlighted.
Markup R-XP may have already selected the correct pages

All None Invert

Select Picture Pages

1 of 12 pages selected

Double Tap To Enlarge

SELECT PICTURE PAGES

Tap any pages which contain pictures of the finished chart or other pages you wish to be able to quickly access whilst marking up.
All other pages should remain un-highlighted.
Markup R-XP may have already selected the correct pages

LOADING CHARTS (Images)

Chart Rotation

Use the +90 and -90 buttons to rotate your chart until it is the right way up.

ROTATE PAGE

Chart Import

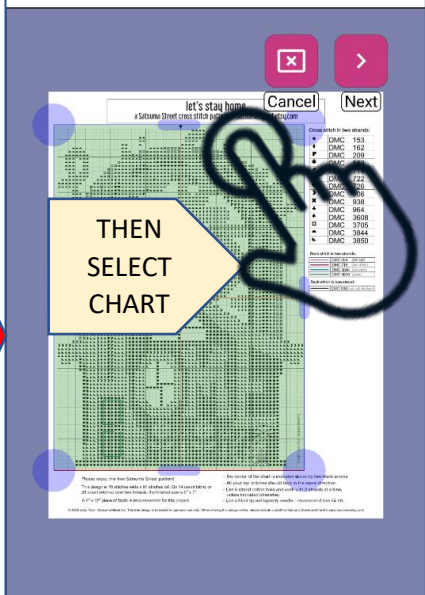

Use the handles to drag the outline so that it perfectly matches either the outline of your chart or the whole page. Pan and zoom to check everything lines up. The more accurately you place the outline, the better the final result will be.

FIRST SELECT OUTLINE

Set Chart Outline

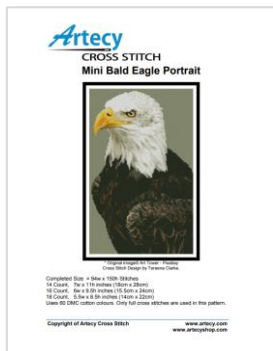

As you have selected 'Whole Page' check that Markup R-XP has correctly found the grid on the page. If not, use the handles to drag the outline so that it perfectly matches the outline of your chart. Pan and zoom as before. The more accurately you place the outline, the better the final result will be.

NEXT STEPS

open the sample project

Try out the various features and understand how they work. Mark up stitches, select symbols and track your progress!

try loading your own charts

Work with any chart from any designer. Start with PDFs and **learn the tools** to model your charts successfully. Practice, practice, practice.
